

PREMIER UNIVERSITY

Department of Computer Science & Engineering

Course Code : CSE 454

Course Title : Compiler Construction Laboratory

Laboratory Exercises (Included in this Report)

Lab	Report Title	Date of Submission	Remarks
1	Write a program to copy the content of a C file to another one	14 July 2025	
2	Write a program to detect comments from a C program and remove it in the output	21 July 2025	
3	Keyword Detection and Counting from C source Code using Python	07 July 2025	
4	Write a program to match whether the given input string is an example of the given regular expression	11 Aug 2025	
5	Identification of identifiers from a C program	11 Aug 2025	
6	Write a program to check whether a grammar is left recursive or not and remove the left recursion from the grammar	8 Sept 2025	
7	A program to implement left factoring detection and removal on a CFG	22 Sept 2025	
8	Write a program to compute the FIRST set of a given context-free grammar.	21 Oct 2025	
9	Write a program to compute the FOLLOW set of a given context-free grammar.	21 Oct 2025	
10	Write a program to construct a predictive parsing table for a context-free grammar.	21 Oct 2025	

Submitted To: Ms. Tanni Dhoom, Assistant Professor, Department of Computer Science and Engineering.
